

QR Code Accessible Pathology Portal Digital Learning Platform

J.E. Martin, E. Youd, M. Mubarak, J. Hall, R. Ayling

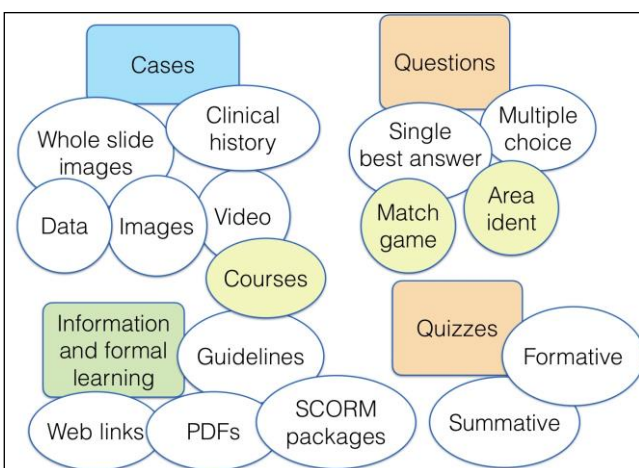

Collaboration - trainees, trainers, students, professional bodies and Technology Enhanced Learning Team

AIMS

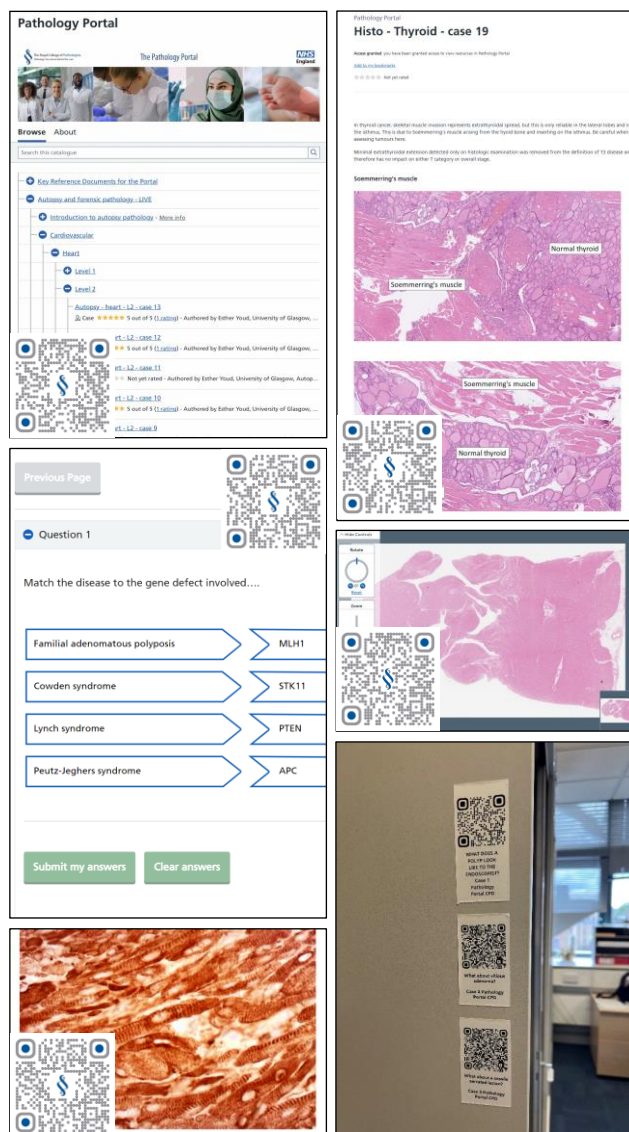

- Create a user led interactive learning resource platform to support learning across all pathology, and other, disciplines
- Align new engaging multi format digital material to medical and scientist training programmes
- Mimic case-based learning in practice
- Enable graded learning with equality of access to specialist materials
- Support demonstration of competence at specific levels of ability & support for less strong areas
- Support reskilling following a move of role, errors or return to practice
- Easy access to the learning resources with the use of QR codes

AGILE PLATFORM AND CONTENT FORMAT DEVELOPMENT

Free to use for Universities, NHS and pathologists:
Sign into NHS learning hub,
Request access to Pathology Portal

MULTI-CURRICULUM ALIGNED AND STAGED

RESULTS

- Over **4,500** modules live, all quality assured by expert editors and international faculty
- Constant content & feature addition
- Over **70,000** launches and completions since August 2022
- Simple back end upload to encourage contributions, GDS compliant
- Tableau dashboard for metrics
- Neuropathology, Histopathology, including frozen sections, Autopsy, Molecular, Genomics, Haematology and Cytology all fully live. Others launching soon.
- Used by over **1900** biomedical scientists, clinical scientists, doctors in training and established practitioners
- 90% of modules 5/5 star rated
- QR code access has been very acceptable, providing in the moment learning opportunities.
